

Your unhappy guests leave without a word. *Now you'll hear them first.*

BillTap asks every guest how it was — at the table or at the counter. A low rating **texts you while you can still fix it**, and every guest gets a one-tap route to your Google listing.

HEAR IT BEFORE THEY WALK OUT

A guest rates you low? A **text and email** hit your phone right away — from the table or the counter — while someone can still walk over.

MORE GOOGLE REVIEWS

Every guest gets a one-tap link to your Google listing — happy or not. No staff asking, nobody filtered out.

BUILD A CUSTOMER LIST EVERY NIGHT

Guests opt in after they rate. Names and emails become **your list** — even at a counter, where you never got a name.

WORKS AT THE COUNTER, TOO

Guests pay first? The code goes on the **cup, bag, number card or receipt** and opens straight on five stars.

NO APP TO DOWNLOAD

Just scan and go. No account.

SPLIT & PAY — OR JUST RATE

Tables split the check. Counters go straight to the stars.

ONE-TAP GOOGLE REVIEW

Every guest gets the link, whatever they rate.

YOUR LIST, YOUR DATA

Guest emails belong to you, not us.

WORKS ALONGSIDE YOUR POS

No integration. No new hardware.

SET UP IN MINUTES

We do the heavy lifting.

We never hide the **review button**.

Some review tools send happy guests to Google and quietly route unhappy ones to a private form. That's **review gating** — Google's review policy prohibits it, and reviews collected that way can be removed. Every BillTap guest gets the same button. **The unhappy ones just reach you first.**

PERFECT FOR

SIT-DOWN

-  Steakhouses
-  Mexican Restaurants
-  Sushi
-  BBQ
-  Sports Bars
-  Family Restaurants

PAY-FIRST COUNTERS

HOW IT WORKS

AT A TABLE sit-down

- 1 Guests scan the QR on the table. No app.
- 2 They split the check and pay their share.
- 3 They tap a star rating on the way out.

AT A COUNTER pay-first

- 1 Guests order and pay at your register, same as today.
- 2 After eating, they scan the code on the cup, bag or card.
- 3 Five stars come up. One tap and done.

Either way: every guest gets your Google review link — and a low rating reaches you instantly.
